RENEWED PETITION UNDER 37 CFR 1.181

This petition is in response to the Decision on Petition ("Decision") of March 20, 2006, a copy of which is attached to this petition as Exhibit A.

A Petition to Withdraw Holding of Abandonment Under 37 CFR 1.181(a) ("Petition") was filed in this case on February 14, 2006, a copy of which is attached to this petition as Exhibit B. The Decision denied the Petition based on MPEP 601.03 and MPEP 711.03(c), stating that "where an application becomes abandoned as a consequence of a change of correspondence address...petitioners are required to establish that due care was taken to adhere to the requirement for prompt notification in each concerned application of the change of address...and must include an adequate showing that a timely notification of the change of address was filed in the application concerned, and in a manner reasonably calculated to call attention to the fact that it was a notification of a change of address." (emphasis added).

The Decision was in error on at least two grounds, and as a result withdrawal of the Decision and grant of the Petition is respectfully solicited. First, the application did not become abandoned as a consequence of a change of correspondence address, because the

correspondence address has not changed. The Notice of Abandonment mailed on February 8, 2006 (which is Exhibit 1 to the Petition attached to this document as Exhibit B) was mailed to Assignee's correct address: 900 Saginaw Drive, Redwood City, California 94063. The previous communication received from the Patent Office was an Office Action mailed on April 19, 2005, a copy of the first page of which is attached as Exhibit C, and which was also mailed to the same, correct address: 900 Saginaw Drive, Redwood City, California 94063. Thus, the assignee has shown that it did not change its correspondence address between the receipt of the first Office Action in this case and the receipt of the Notice of Abandonment. The assignee did file a Power of Attorney in this case on August 15, 2005 in order to associate this case with its customer number, 33109, so that the application could be accessed via Private PAIR. A copy of this Power of Attorney is attached as Exhibit D. However, the address given on the Power of Attorney, and the address associated with Customer Number 33109, is the same address as the correspondence address of record in this application: 900 Saginaw Drive, Redwood City, California 94063. Thus, the showing made in the Petition was sufficient to allow the Petition to be granted, because the correspondence address did not change, and thus the application did not and could not go abandoned as a consequence of a change of correspondence address.

Second, an action of a federal administrative agency such as the Patent and Trademark Office will be set aside if it is "without observance of procedure required by law." (5 U.S.C. §706(2)(d)) (part of the Administrative Procedure Act). The Petition was prepared in accordance with MPEP 711.03(c)(I)(A), which sets out the requirements for withdrawing a holding of abandonment on the grounds that an Office Action was not received. This section of the MPEP does not distinguish between failure to receive mail from the Patent Office due to failure of the Postal Service and due to a change of correspondence address of record. By adding requirements beyond those set out in MPEP 711.03(c)(I)(A) for withdrawing a holding

of abandonment on the grounds that an Office Action was not received, the Decision failed to observe procedure required by law, in violation of 5 U.S.C. §706(2)(d).

Because Cardica's attorney never received the Office Action in this application, as proven by the Petition, and because Cardica did not change its correspondence address between the receipt of the first Office Action and the receipt of the Notice of Abandonment, Cardica requests that the holding of abandonment be withdrawn, and that the Office Action be sent to the correspondence address of record, which is the same as the address provided below. No petition fee is required. Please charge any underpayment or credit any overpayment to deposit account 502108.

Please contact the undersigned if there are any questions.

Respectfully symitted,

Brian A. Schar

In re Application of Yencho, et. al Application No. 10/810,170 Filed: March 26, 2004

Docket No.: 152

DECISION ON PETITION

This is a decision on the petition to revive under 37 CFR 1.181, filed February 14, 2006.

The petition under 37 CFR 1.181 to withdraw the holding of abandonment is hereby **DISMISSED**.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.181." This is not a final agency decision.

This application became abandoned October 30, 2005 for failure to timely submit a proper reply to the non-final Office action mailed July 29, 2005. Notice of Abandonment was mailed February 8, 2006.

Petitioner asserts non-receipt of the Office communication mailed July 29, 2005.

In the absence of any irregularity in the mailing of the Office communication, there is a strong presumption that the Office communication was properly mailed to practitioner at the address of record. This presumption may be overcome by a showing that the Office communication was not in fact received. The showing required to establish non-receipt of an Office communication must include a statement from the practitioner stating that the Office communication was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement. See, MPEP 711.03(c). The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office communication may have been lost after receipt rather than a conclusion that the Office communication was lost in the mail.

Petitioners are advised, however, that where an application becomes abandoned as a consequence of a change of correspondence address (the Office action being mailed to the old, uncorrected address and failing to reach the applicant in sufficient time to permit a timely reply), petitioners are required to establish that due care was taken to adhere to the requirement for prompt notification in each concerned application of the change of address (See, MPEP 601.03), and must include an adequate showing that a timely notification of the change of address was filed in the application concerned, and in a manner reasonably calculated to call attention to the fact that it was a notification of a change of address. See, MPEP 711.03(c).

Office records indicate the Office communication was properly mailed to the correspondence address of record at the time of mailing. Accordingly, there was no irregularity in mailing the Office communication on the part of the United States Patent and Trademark Office as a change of correspondence address was filed August 15, 2005, subsequent to the date of mailing of the Notice.

ALTERNATE VENUE

Petitioners are strongly urged to consider filing a petition stating that the delay was unintentional. Petitioner's attention is directed to 37 CFR 1.137(b) which provides for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of an issue fee was "unavoidable". An "unintentional" petition under 37 CFR 1.137(b) must be accompanied by the required petition fee and reply.

The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

PATENT APPLICATION UNDER 37 CFR 1.181(a)

This petition is in response to the Notice of Abandonment of February 8, 2006, a copy of which is attached to this petition as Exhibit 1. The Notice of Abandonment stated that abandonment resulted from "failure to timely file a proper reply to the Office letter mailed on 29 July 2005." However, the Office Action mailed on July 29, 2005 ("Office Action") was not received by Cardica's attorney. Consequently, Cardica's attorney respectfully petitions the USPTO to withdraw the holding of abandonment in this patent application.

A search of the file jacket and docket records indicated that the Office Action was not received. A copy of the docket record from Cardica's attorney is attached as Exhibit 2, in accordance with the requirements of MPEP 711.03(c)(I)(A). Cardica's attorney utilizes the web-based Foundation IP application to docket responses, and Exhibit 2 is a printout of the web page in Foundation IP for this patent application. As seen in the docket record of Exhibit 2, no reply is docketed for this application at any time within three months after July 29, 2005, the date of the Office Action.

Because Cardica's attorney never received the Office Action in this application, as proven by this Petition, Cardica requests that the holding of abandonment be withdrawn, and that the Office Action be sent to the correspondence address of record, which should match the address provided below. Please charge the petition fee under 37 CFR 1.17(h) to Deposit Account No. 502108, and please charge any underpayment or credit any overpayment to that deposit account.

Please contact the undersigned if there are any questions.
